

### Offshore Development & Maintenance Support Services

**JSC Global Solutions** has an excellent track record of providing IT & BPO solutions to clients for over 8 years. We enable companies create and maintain competitive advantage by focusing on providing **optimal information solutions**.

At JSC Global Solutions, we distinguish ourselves from our competitors through the range & quality of **global resources**, the depth of our **industry insight**, project management and technical expertise. Our **flexible & collaborative approach** results in **highly satisfied customers**.

#### Offshore?

JSC Global Solutions recognizes the increasing need for organizations to leverage the globalization of technology and technical resources. Outsourcing to an offshore arm or a partner affords companies more than just economies of cost, it also enables them leverage time differences to provide round the clock support and thus increased value for the IT dollar.

Outsourcing IT activities offshore needs to be examined and initiated carefully by all organizations to ensure that it is more than just a knee jerk reaction to what is currently fashionable. If approached strategically and monitored carefully outsourcing certain IT activities offshore can provide extensive benefit to your company.

#### Advantages of an effective Offshore Support Operation

**Focus:** With successful outsourcing of projects, management gains strategic capacity. Capacity to explore new revenue streams, capacity to accelerate other projects, and capacity to focus on customer concerns and issues. Traditionally, executives spend 80 percent of their time managing details, and only 20 percent on strategic planning and customer relations. A successful offshore outsourcing process can reverse this ratio.

**Cost - Reduction:** Generally, outsourced services cost you a fraction of the US (30-50%) costs and with equal or improved quality. Your competitors are outsourcing operations offshore to achieve cost advantages and provide additional strategic capacity to their management resources. Offshore software development companies like JSC Global Solutions can help you reduce operating costs. Our resources assure delivery of quality products and services to meet your and your customers' expectations. Our Quality Assurance (QA) comes at a cost affordable to you!!!

For temporary peaks, an outsourcing arrangement can avoid expensive new recruits or the high cost of local consultants by utilizing lower priced consultants that offshore companies provide.

**Rapid Migration to New Technology:** JSC Global Solutions' Offshore Outsourcing uses the latest state-of-the-art technologies to serve their international clients. This may provide your company with access to new technologies that might not be available to your company. The chances of migration to the new technology, by your company can also be leveraged in the short as well as long term.

**Strategic Deployment of Resources:** Offshore Outsourcing allows internal resources to concentrate on strategic projects related to the success of your business. Offshore Outsourcing frees your internal resources from routine activities that although necessary may delay completion of your strategic projects.

**Exploit the Time Zone Advantage and reap the benefits of 24-hour development cycles:** Offshore Outsourcing models to destinations like India give you the benefit of 24x7 services. You can easily exploit the time zone advantage that India shares with the US and receive round the clock benefits for your external & internal customers.

### **JSC Global Solutions' Offshore Operations**

JSC Global Solutions' has established a subsidiary company (KDice India Pvt. Ltd.) in India with offices in Chennai and Chandigarh, in the southern and northern parts of the country respectively. Our subsidiary company is mandated with the task of providing IT solutions and services to the South Asia market in addition to supporting software development activities and offshore service offerings of the North American market.

### **The JSC Global Solutions Approach**

We at JSC Global Solutions are in a unique position to provide high quality offshore development or maintenance services by virtue of our long standing experience and track record in the North American market. While most other offshore companies based elsewhere struggle to cope with the realities of dealing with differing work cultures, client expectations and business environment, we at JSC Global Solutions leverage our unique

understanding of the business environment, infrastructure and work environments of North America as well as South Asia to provide uninterrupted, world class support and services to our clients. As an organization we are also flexible in our engagement terms and modes and are willing to go the extra yard to provide the best possible services and helping you gain invaluable competitive advantages.

### **THE JSC GLOBAL SOLUTIONS DIFFERENCE!**

- **Quality**
- **On-time**
- **Flexible**
- **24 x 7 support**

**at significant cost savings!!!!**
